Property Description

Located just 5 minutes from Samara, this 1.35-acre finca is perfectly situated between a forest and a river, offering easy access and ample parking. This organic permaculture farm features over 40 types of plants and trees, including avocados, mangos, dragon fruit, cacao, and a variety of citrus trees. The property includes a versatile 100 m² workshop with a metal roof and concrete floor, which can be kept as a workshop, extended into a house, or transformed into a large terrace. The existing house behind the workshop includes a living room, kitchen, two bedrooms, a bathroom, a covered terrace, and an outdoor kitchen with a wood-burning oven. Adjacent to the workshop is a greenhouse equipped with a concrete drainage system, ideal for growing a variety of plants and vegetables. The greenhouse complements the flourishing orchard, which is protected by a natural stone wall and contains mature fruit trees such as lemon, banana, grapefruit, and more.
