Property Description

This property offers a rare opportunity to anyone interested in a wondrous coastal residence. Along with the combination of two homes with a salt water pool, all designed and furnished by a professional American designer, it is only a short walk to an uncrowded beach. An additional bonus is that all furniture, appliances and artwork are included, making this a superior luxurious residence or a profitable rental, all turn-key and ready to go. The main house consists of 2 Bedrooms and 2 Baths, a large patio, an infinity pool, a two-car garage, laundry room and secure storage area, over 3,000sf in all. Air conditioning throughout and walls that rise 20ft with large high windows, keep the home cool and bright with natural light. A large wall dividing the home is made of Venetian Plaster, a glossy marble-like texture that adds light and elegance to the living room / kitchen area. Custom furniture made with exotic hardwoods and beach woods furnish the rooms and kitchen area.
