Property Description

Set on a fully fenced, 5,128m² lot in one of Cahuita's most promising neighborhoods, this solidly constructed three-bedroom, two-bathroom home delivers an exceptional combination of quality, privacy, and location with Playa Grande just a short five-minute stroll away. The interior is designed for easy, comfortable living. An open-plan layout connects the kitchen, dining, and living areas, creating a space that feels both social and functional. The kitchen is a genuine highlight: anchored by a large central island with breakfast bar seating, it features a gas range, vented microwave, generous counter space, and custom cabinetry built for serious storage. All three bedrooms are well-sized and naturally lit, each equipped with quiet, efficient Ecold air conditioning units. The primary bedroom accommodates a king bed with a pull-out trundle, a practical touch for visiting guests or family. The home has been finished with longevity in mind.
