Property Description

This elegant home was designed and furnished by artisans with an eye toward classical beauty. Walk in the front door and you will look up sweeping staircases separated by a waterfall. On your left there is a comfortably spacious living room with a full bath and two bedrooms behind it, on your right a fully equipped dining area and kitchen with breakfast bar and everything you need to prepare anything from your morning cup of coffee to a gourmet dinner, and another bedroom behind them. The two upstairs bedrooms are each master suites accessed separately from their own side of the staircase for complete privacy and separation. Both are luxuriously large, have their own bathrooms, and open onto wide terraces that offer you an expansive view of a jungle covered valley and a peek at the Pacific Ocean in the distance. Finishing touches in natural wood and creative furnishings are everywhere in the home, including a special cabinet for bottles of beverages, a clay oven outside, and stained-glass accents created by the owner.
