Property Description

Ojochal is the fastest growing town in our area - with her ocean, river, jungle and mountain surroundings, she is presenting a red-hot investment market. A brand-new Ojochal listing is just hitting the market and is full of the types of qualities which a discerning buyer is sure to value and appreciate! The property is located on the aptly named Calle Jardin, a quiet street parallel to the main street of Ojochal – so while still adjacent to the services and amenities of the town, the traffic is limited and restricted to local residents only. Several rental businesses already flourish on this street and this property has in itself a great potential for turning into a very profitable rental business. This iconic property is a community landmark with two rows of majestic Royal Palms running along the private driveway from the entrance gate to the car park and carport which is attached to the house.
