Property Description

This property is located half way between Quepos and Manuel Antonio National Park and Beach. It is a 2 minute walk to stores, restaurants, bus stop, shops, banking, etc. This is the center of Manuel Antonio. There are two homes currently on this large property. The first home is 200m² or 2000sf. It has three bedrooms and two bathrooms. It is occupied by a longtime renter who uses two of the three bedrooms and one bath. The third bedroom, bath and small kitchenette is also being rented out separately. It contains a beautiful wrap around porch for dining and view of the sunset. The kitchen and bath have recently been remodeled and are very nice. Large spacious rooms with an open ceiling makes this cozy home feel even larger than it is. The second little house is 70m² or 700sf. It has one bedroom, one bath and a spacious kitchen/living area. It is a favorite on AirBnB. Both properties produce a very generous income.
