Property Description

Perched up on the "Costa Ballena" mountain range with in line views of the famous "Whales Tail" sand bar and rocky reef, this exclusive view site is now being offered for sale. The parcel has gently sloping topography that rises to a high knoll with an epic 360 degree view with a near vertical lush mountainside to the rear, and expansive valley and sea views. There is also an additional terraced site below the main site. You get the feel of a being in a cockpit of an airplane with the way this property is situated at an elevation of approximately 1,400 feet. You like the idea of being close to the beach, but prefer the cool climate, well, this one offers just that. Do not miss out on this exclusive ocean view site, there are very few that compare to this one!
