Property Description

Are you looking for a private escape in the jungle with all of the life's modern amenities? Then this jungle jewel is the home for you and it's an incredible deal. **THE COMMUNITY:** Portasol has received numerous awards for its Eco-friendly Sustainable Development and Corporate Social Responsibility that features a 173 acre biological reserve, protected areas, lookouts, waterfalls, creeks and a stunning river with swimming holes. Only 17% of the community's 1,335 acres will be developed and only 15% of each lot can be constructed upon; thereby retaining the rainforest and animal corridors. Access is controlled by a private gate and security personnel 24/7. The onsite Spa offers physical therapy, yoga, wellness and relaxation treatments. Concierge services and property management are also available. **THE LOCATION:** The Portasol community is located between Manuel Antonio National Park (Quepos) and the Marino Ballena National Park (Dominical); only 2.
