Property Description

Prime location, stunning and pristine viewscape, end-of-the-road setting, unique design & close proximity to beaches and services are some of the hallmarks of this very attractive property. This stylish 3 bedroom, 4 bathroom house sleeps 10 and offers a quintessential Manuel Antonio experience. Upon entering the great room, the ceiling measures from 14 to 24 feet in height as the open area stair-steps down. The crest of this vaulted area is supported by two exposed, massive almond wood beams. The owners just replaced the roof late 2018. From the entrance porch, strikingly sculptured stairs either levitate to a lofty mezzanine and further up to the master suite and sun-deck above, or widen as they flow down to the kitchen/dining level and the living room below - always inviting to double as seating. The vast floor-to-ceiling glass facade opens to a water-edged living terrace shaded by 3 smartly suspended sails, while high cedar doors attend the side-wing-suite on the right side of the living room level.
