Property Description

Exceptional properties featuring; ocean views, outstanding privacy, creek frontage, ready to build large principal site, existing guest house of highest build quality and only minutes to town center on a well-maintained road are increasingly difficult to find near Uvita. At Casa Keike, you can immediately enjoy the best of Costa Rica living and plan your dream tropical home surrounded by serenity. The outstanding ocean views were created without disturbing the natural landscape which provides a sanctuary for wildlife and shade below. With 6.2 acres of varying terrain, this property is special in how it lays out with a lower flat section along the creek where you will find an entry gate and an existing caretaker's/rental home. From here the property climbs to a higher elevation of almost 900' where the ocean breeze, along with the natural cooling effect of the creek, will maintain an ideal tropical climate.
