Property Description

Casa Luna de Plata - Silver Moon House Superlatives lack meaning when describing this singular, 4 bedroom /4.5bathroom home. Perched high atop the hill of Valle Pura Vida, overlooking Manuel Antonio, Quepos, El Salto and the road to Dominical, one first takes in the glorious 270-degree view. Unlike any other in the area, Casa Luna de Plata offers an unimpeded, wrap around view of the ocean, its coast, the Cerro Nara Mountains and jungle below. Oriented to the west and east, sunrise and sunset are a daily joy. Casa Luna de Plata was built by two world-renowned French designers. Its architecture is perfectly suited to its purpose and every detail shows thoughtfulness and refinement. The home has four suites within a clever design where one can rent all four units separately or combine them in any grouping to best suit a vacationer's needs. Interior stairs connect all the units to allow the whole house to connect as one but doors provide separation if needed.
