Property Description

This house says, WOW! 3,154 square foot, contemporary home has it all! Upon entering the home you are immediately drawn to the open living room, dining room, kitchen and beyond to the covered terraces, infinity pool and expansive views of the Whales Tail formation, Cano Island and the Osa Peninsula. At night you can enjoy the city lights of the town of Uvita below. The custom, 20 foot, expanding glass and screened door merges together the open living area to the outdoor spaces; bringing the outside in and allowing for easy entertaining for large crowds. The cedar cathedral ceiling soars above the living area, adding to the feeling of airiness and space. The contemporary kitchen features custom made cabinetry with roll out shelves, granite counter tops and stainless steel appliances. The two guest bedrooms on the first floor are conveniently located off of the open living area. One of the bedrooms enjoys the ocean views and a covered terrace.
