Property Description

Wake to the sounds of the rain forest as you sip your morning beverage overlooking the beautiful Pacific coastline with a view from Playa Bandera all the way to the hilly shores of Manuel Antonio National Park. This recently updated tropical Eco oasis pool on 3.3 acres with an additional 1.25 acre lot available adjacent, is designed to fill your senses with the beauty and bounty of nature with very little ecological impact, as it comes with solar power, a saltwater pool and a first level constructed from two shipping containers. On that first floor to one side is a beautiful air-conditioned fully furnished guest suite with a full bath featuring beautiful decorative stonework. And on the other side is a full chef's kitchen with custom-built cabinets, 5 burner gas stove and oven, pantry and indoor dining. In between, there is a large covered breezeway with work-out gym, living area, and dining area to enjoy the tropical breezes and stunning beauty of nature all around.
