Property Description

This is truly a one of a kind located on the road to Manuel Antonio National Park. It is one of the original buildings built in the late 1980's (with solid concrete and teak wood). It has three floor levels with a parking garage, as well as, three outside parking spots. Don't let the age fool you, it comes with licenses for (very rare): use with tourists, hotels, cabina, restaurant, bar, discotecas, shops, boutiques, or housing for one family or multiple families. It can also be used for cultural, communal, green areas, museum, zoological, butterflies, and other botanical gardens. It has a new roof and gutters. It is moments from the beach and transportation. It does need work but it is priced accordingly. Land in MA is \$1,000 per sq meter. This is 596 m2 worth of land alone.
