Property Description

This property is perfectly positioned in the Escalares hills of Playa Dominical, which is commonly referred to as the "Malibu area" of Costa Ballena. The home is prime real estate just 2 kilometers off the main highway (Costanera) and close proximity to Dominical's beaches, restaurants and rain forest wonders. The main home and guest house come fully furnished. The main house has the tropical indoor/outdoor living experience mixed with the feeling of a Tuscan villa nestled within your own personal tropical garden. The kitchen, finished with granite counter tops and stainless steel appliances, open onto the living room with fold-away doors, which extend to the exterior patio. The design welcomes warm breezes, scents of the rain forest and spectacular ocean views. The master bedroom has its own private ocean view balcony and indoor/outdoor shower. Downstairs is the guest room with its own bathroom and terrace with flowering gardens allowing oneself to enjoy toucans, hummingbirds and much more.
