Property Description

This home / B&B is located in a very private area of Manuel Antonio and the compound has a total of five bedrooms, four bathrooms, a large pool area with a large deck and barbecue area. This is a great opportunity for a client who would like to build on a property for expansion with already existing structures on the property. The main house has a total of three bedrooms, two bathrooms, kitchen, dining room, living room, and laundry area. There are also two other studios homes on the property each a bedroom and a bathroom... Also in 2014 were built the two studios, the Tiki bar and the pool. The property is half an acre in size, has a nice jungle feel to it, is very private, has a nice Pacific Ocean View, and there is plenty of property to build another large home on the property with great ocean view. The property has a great pool area, a perfect get-away from the tropical heat and a great place to entertain with a barbecue around the pool.
